

In the United States Court of Federal Claims
OFFICE OF SPECIAL MASTERS
No. 22-1579V

SHERRYL FISHER,

Petitioner,

v.

SECRETARY OF HEALTH AND
HUMAN SERVICES,

Respondent.

Chief Special Master Corcoran

Filed: April 30, 2024

David Gregory Rogers, Rogers, Hofrichter & Karrh, LLC, Fayetteville, GA, for Petitioner.

Camille Jordan Webster, U.S. Department of Justice, Washington, DC, for Respondent.

RULING ON ENTITLEMENT¹

On April 29, 2024, Sherryl Fisher filed an amended petition² for compensation under the National Vaccine Injury Compensation Program, 42 U.S.C. §300aa-10, *et seq.*³ (the “Vaccine Act”). Petitioner alleges that she suffered a shoulder injury related to vaccine administration (“SIRVA”) as a result of an influenza (“flu”) vaccination she received on October 20, 2021. Amended Petition at 1. Based on the records, Petitioner suffered the residual effects of her condition for more than six months. Ex. 3 at 36-40. The case was assigned to the Special Processing Unit of the Office of Special Masters.

¹ Because this Ruling contains a reasoned explanation for the action taken in this case, it must be made publicly accessible and will be posted on the United States Court of Federal Claims' website, and/or at <https://www.govinfo.gov/app/collection/uscourts/national/cofc>, in accordance with the E-Government Act of 2002. 44 U.S.C. § 3501 note (2018) (Federal Management and Promotion of Electronic Government Services). **This means the Ruling will be available to anyone with access to the internet.** In accordance with Vaccine Rule 18(b), Petitioner has 14 days to identify and move to redact medical or other information, the disclosure of which would constitute an unwarranted invasion of privacy. If, upon review, I agree that the identified material fits within this definition, I will redact such material from public access.

² Petitioner initially filed a petition on August 1, 2023, alleging the flu vaccination administered to her on October 20, 2021, caused petitioner to develop neuropathy. ECF No. 1.

³ National Childhood Vaccine Injury Act of 1986, Pub. L. No. 99-660, 100 Stat. 3755. Hereinafter, for ease of citation, all section references to the Vaccine Act will be to the pertinent subparagraph of 42 U.S.C. § 300aa (2018).

On April 30, 2024, Respondent filed his Rule 4(c) report in which he concedes that Petitioner is entitled to compensation in this case. Respondent's Rule 4(c) Report at 1. Specifically, Respondent states that "petitioner's alleged injury is consistent with SIRVA as defined by the Vaccine Injury Table. Specifically, petitioner had no history of pain, inflammation, or dysfunction of her left shoulder prior to vaccination; pain occurred within forty-eight hours after receipt of an intramuscular vaccination; pain was limited to the shoulder in which the vaccine was administered; and no other condition or abnormality has been identified to explain petitioner's shoulder pain." *Id.* at 4. Respondent further agrees that Petitioner suffered the residual effects of her condition for more than six months and has therefore satisfied all legal prerequisites for compensation under the Act. *Id.*

In view of Respondent's position and the evidence of record, I find that Petitioner is entitled to compensation.

IT IS SO ORDERED.
